Journey to Africa at a Glance

Introduction: Providing a “lifetime of safaris”, Journey to Africa creates custom safaris to Tanzania and beyond. The company was built by its founder after a lifetime living and traveling through Africa and today Journey to Africa showcases this great continent with the utmost passion and pride only a native can share. Based in Houston, Journey to Africa understands the needs and desires that American travelers demand and excels at catering to the individual needs and expectations of each client.

The company is focused on developing long-term relationship with all clients. Journey to Africa clients often fall in love with the African continent after the first safari experience and the company takes great pride in helping clients discover new areas of Africa and experience safari again and again.

The Journey to Africa Focus on Guiding: Journey to Africa believes that guiding makes all the difference while on safari in Africa. The company only uses the very best guides, whether local driver guides or professional safari guides. Journey to Africa has a guiding partner to meet all budgets and interests. All guides are members of the Tanzania Safari Guides Association.

The Journey to Africa’s Focus on Culture: Founded by a Tanzania native, no Journey To Africa safari is complete without meaningful cultural interaction. The “Wildlife to Village” program is a perfect example of a classic wildlife safari combined with cultural learning opportunities such as visiting a local primary school, the Rift Valley Children’s Village orphanage and meeting and interacting with the ancient Hadzabe and Datoga tribes.

The Journey to Africa’s Focus on Insiders Access: While Journey to Africa is familiar with the most popular sights of East Africa, including the Serengeti, Zanzibar, and the Maasai Mara, the company takes great pride in bringing clients to more “untouched” areas of the country. Journey to Africa offers true insiders access to areas such as the remote southern regions of Tanzania and special gorilla trekking programs in Uganda.

Founder Biography: Born and raised in Tanzania, Journey to Africa’s founder Mefi Pishori runs the company with East Africa in her heart. She finds joy in spending time answering client’s questions – from “did you have elephants for pets growing up?” to “what is the most luxurious lodge in the Serengeti?” Mefi travels to East Africa annually to visit lodges and meet with the company’s guiding partners. Mefi’s personal knowledge of and passion for Tanzania make it possible for clients to experience cultural extras such as visiting local towns such as Mto-wa-mbu, local schools and the Rift Valley Children’s Village. Upon returning from safari, the vast majority of clients report that the safari experience “was more than I was expecting!” This drives Journey to Africa to continue producing unique safaris to East Africa.

How to Contact Journey to Africa: For reservations or more information please contact us at info@JourneyToAfrica.com or 1.877.558.6288.
